identiMetrics Announces the Release of identiFi™ Version 2.0

JENKINTOWN PA – (BUSINESS WIRE) – MONDAY, JANUARY 5, 2015 – identiMetrics, the leader in biometrics finger scanning identification solutions for schools, announces the release of identiFi™ version 2.0 as part of the identiMetrics Finger Scanning ID System.

“This latest version 2.0 of identiFi™ was developed with a variety of new features suggested and tested by our customers,” remarked Douglas Miller, Vice president of Research & Development and Chief Architect of the identiMetrics Finger Scanning ID System. “We are currently in over 40 states with tens of thousands of students across the country using the identiMetrics Finger Scanning System everyday.” he added.

“We are proud to be the leader in biometrics in education – an industry that was in its infancy just a decade ago,” said Jay Fry, President & CEO of identiMetrics. “As technology becomes more and more sophisticated and expensive, schools require cost-effective and accurate technology solutions to improve their operations. Our biometric finger scanning system allows them to guarantee accurate records and increase their security on campus in an efficient and cost-effective manner.” he added.

identiMetrics, Inc., a privately held company headquartered outside of Philadelphia, PA, is the leader in the development and marketing of biometric finger scanning identification solutions. identiMetrics provides the only biometric ID system designed specifically for the unique needs of schools. The identiMetrics Finger Scanning ID System™ provides a cost-effective and accurate replacement for swipe-card readers, barcode readers, and PIN pads allowing schools and school districts to increase accountability, improve operations and boost security.
