

Frontline Absence & Time integrates with identiMetrics

If you're going to pay employees correctly, you have to be able to accurately capture employee work time. That means giving your employees an easy and effective way to sign in and out of their work day, while giving you the security of knowing that only the employee has the ability to sign themselves in and out.

That's why **Frontline Education** has partnered with **identiMetrics**, the leading biometrics provider in K-12 education, to provide you with a fast, easy-to-use and secure way for your employees to identify themselves at the Frontline Absence & Time kiosk.

About identiMetrics

identiMetrics Biometric ID Management is for school administrators who are interested in simplifying identification management. Our award-winning biometric technology was developed specifically for K12 schools by a former Principal. identiMetrics simplifies the school day with efficient, accurate, and hassle free accounting. It eliminates the need for ID cards and PIN numbers allowing school districts to run more efficiently. From your seasoned staff down to the kindergarten students, identiMetrics is 100% accurate, safe and secure.

identiMetrics does not store any fingerprints. Fingerprints cannot be recreated from the encrypted numerical templates, and employee accounts cannot be compromised.

Why use identiMetrics Biometric ID Management with Frontline Absence & Time?

- Provide your employees with a **fast, secure and reliable way** to sign in to and out of Frontline Absence & Time via the kiosk in seconds
- Ensure only the employee can sign themselves in and out, giving administrators **confidence of accurate time capture**
- Eliminate the issue** of lost cards and forgotten PINs
