

Meet your new attendance takers

Meeting Attendance Plugin *with PowerSchool*

Students scan, teachers teach and your office staff have accurate and hassle-free attendance in real-time.

Your **Meeting Attendance** has never gone smoother. Students scan for each class and are identified as *Present* or *Tardy* depending on the pre-configured times you have set. If there is no scan after a designated time, the student record is automatically changed to *Absent* for the class.

Easy **Daily Attendance** at the front entrance, 1st period classroom or homeroom gives you 100% accurate records in real-time.

- Processes scan data and missing scan data at regular intervals to create the appropriate attendance records in real-time directly into PowerSchool.
- Installs on your PowerSchool Admin Portal with additional back end components setup on a secure hosted server.
- Utilizes the attendance codes in PowerSchool.
- Eliminates the need for teacher intervention.
- Biometric scanners can be connected to your computers/tablets or attached to the wall of the classroom.
- Can be customized for your specific and unique needs.

**Simple. Easy.
Secure.**

(Your teachers & staff will ❤️ you!)
